States ture when he secured his services for a course of twenty- tees : four lectures during the present session of the College The Mamphia Female College is an institution of learnng that our citizens may well be proud of, and the repu taxion which it has obtained abroad is well deserved. At the present time, it numbers about eighty pupils, twenty r more of whom are from adjacent States, and are sen hither by parents well satisfied that as thorough and poished an education can be obtained by their daughters as at any Female College in the United States. The President, Rev. Mr. MacPHERSON, is an eminent scholar and experienced teacher, and to his superior managemen and application to the interests of those placed under his charge, is attritutable the high standing which the College has obtained and maintains. The other members of the Paculty are accomplished schelars, and every way worthy of the positions which they occury.

The pleasant situation of the College, and the complete ness of the building for the purposes for which it was erected, the dermitories being large and well ventilatedthe resitation rooms being admirably arranged for bot comfort and convenience, makes it a desirable place for pepile both from the city and abroad.

The prises of inition are extremely reasonable, and when It is taken into consideration that wocal music is taught by a teacher who has few equals, and that lectures are de livered three times a week, by br. MILLINGTON, on in teresting and valuable subjects, without extra expense t the pupil, we wonder that more parents have not availed themselves of the benefits which wou'd inure to their daughters, from tuition there, and profited by it.
